MDE OFS Regions covered: Regions 2, 3, 4, 5

Education: ASA, Northwestern Michigan College, Traverse City, MI BA, Grand Valley State University, Traverse City, MI

I have been involved in the development, revision, and implementation of schoolwide and improvement plans for charter schools as a Grants Consultant since 2008. I attended the Schoolwide Transition Facilitator Training held in June 2009 and became an MDE-approved Schoolwide Transition Facilitator. I have worked extensively with schools in the process of writing, revising, and implementing Schoolwide and Improvement Plans, through on-site school quality reviews, internal and external audits, and consultation with school improvement teams. My ongoing professional activities as they relate to ESEA and Title I include attendance at several conferences and forums both within Michigan and nationally. These include fall and spring attendance at forums conducted by the national education law firm Brustein & Manasevit, the National Title I Conference, the Johns Hopkins National Network of Partnership Schools - Joyce Epstein parent involvement conference, extensive training on EDGAR with Bonnie Little, Esq., Brustein & Manasevit, and various events hosted by MDE, MAS/FPS, and ISDs. Additionally, I regularly read applicable Title I Compliance Insiders, non-regulatory guidance, and literature supplied by USDoE and MDE.

I have been responsible for ensuring that charter schools understand Title I, Part A programs, services, and legislation for four years, along with other state and federal grant programs. My experience includes providing technical and consultative support to schools on a variety of Title I-related components including the Schoolwide transition process, Consolidated Application process, School Improvement Plans, meeting Title I compliance requirements, and understanding research-based strategies.
